The Indian Garden Company specialises in exquisite, hand-crafted decorative accessories for the garden.

These decorative items are hand-crafted by skilled artisans, whose families have been traditionally making these products for centuries. We've found the best craftsmen and worked closely with them, adapting the designs to make them practical for western climates and tastes.

In the process we provide business opportunities to the artisans in these developing economies. Our aim is to add real value to handmade products, through quality in design and construction. We are committed to sustainable development, encouraging the complete processing of the artefacts in the community.

Each hand-crafted product is unique. We hope you enjoy them as much as we do and appreciate the history, skills and fascinating stories behind each piece.

# INDIAN JAIPUR TENTS

The Indian Garden Company's 2010 collection of luxury Jaipur tents are inspired by the ancient tents used by the Mughal Emperors of India.

These romantic structures are ideal for use in the garden, by the pool or on the beach and make a perfect centrepiece for weddings and parties. Our opulent tents combine exquisite traditional craftsmanship with modern design and manufacturing techniques. Each tent is made by hand using high quality 15 oz canvas that is waterproof, mould proof and fire retardant to British and European Standards.

The interior lining of the tent is made from 100% cotton with distinctive hand blocked prints from Sanganer, Rajasthan. In this ancient art, sun-bleached cotton is printed by hand with carved wood-blocks which have been dipped in natural dyes derived from plants, roots and the earth – the result is a subdued, sophisticated palette in shades of Indigo, Taupe, Blue, Chocolate, Silver and Gold.

All the tents have aluminium or galvanised steel frames made in the UK by experienced engineers. The frames are versatile, freestanding structures, which can be installed on soft ground, concrete or even a wooden deck. Frame tents are easy to erect and transport as they have no interior centre poles and can be placed in locations where Pole Tents are difficult to site.

We have developed a number of different sizes to fit your requirements, whether it be a small space or a large event, we have a frame tent to suit most budgets. If you need any help working out the best solution for your needs, please call or email our team. Special designs for custom-made theme tents (in any size) can be made to order. We can also develop exclusive prints, logos, appliqué motifs, embroidery, tiny mirror work with gold or silver stitching and tassels.

# THE MAHARANI

The traditional tents favoured by India's royal princesses inspired the design of this romantic and elegant octagonal tent.

The Maharani can comfortably seat 10 people around a 1.6 metre table and is ideal for alfresco entertaining or simply relaxing in the garden. The exterior is made from natural white 15oz canvas and is treated to ensure that it is both waterproof, rot proof and fire retardant. The tent frame is aluminium with the roof poles slotting together quickly and easily to support the canvas roof. The side poles fix into substantial footplates, which can be bolted to a hard surface and with additional guy ropes provide support on softer ground. The decorative cotton inner lining is hand-blocked by our skilled and experienced staff in a range of designs and colours. The sidewalls, drapes and doors are independently detachable allowing you to customise and style your tent to your own requirements.

# THE HAVELI

The Haveli is a rectangular summer outdoor tent room which can be set up very quickly to create an opulent room in your garden.

Tents similar to these were used by estate owners in the days of the Raj. So... why not sit back, relax, and savour high tea on your lawn. If you remove the side panels the Haveli can comfortably accommodate seating for 20 people across a long table, ideal for lazy summer lunches. The sidewalls, drapes, doors and canopies are independently detachable allowing you to customise and style your tent.

- Inner lining on side canopies can also have block printing

# THE JAISALMER

Named after the Golden City of Jaisalmer, located in the heart of the Thar Desert, The Jaisalmer is a practical square canopy, which can comfortably seat 10 people. It's ideal for a lazy lunch, or intimate dinner party.

The frame can be erected on almost any surface and requires no centre poles leaving the interior with a very open and spacious feel. You can combine two or more Jaisalmer tents into a line to create a substantial shaded space. The sidewalls, drapes and doors are independently detachable allowing you to customise and style your tent.

## Dimensions

Length: 3m  
Width: 3m  
Height: 3.2m

## Included

- 1 panel with arched door

# THE SHAMIANA

The origin of the Shamiana Tent dates back to the Mughal era when traditional Shamiana canopies were used for hunting parties and marriages.

The Shamiana can be erected very quickly as a flat or angled canopy and in minutes provide a wonderfully decorative backdrop to barbeques, pool lunches or just lounging in the garden. It also makes an ideal sunshade for children to play under. The Shamiana can be erected as a sloping canopy which helps prevent water pooling on top of the structure. The 3m version will accommodate 10 people seated around a round table while the 4.5m version can seat up to 30 people at trestle tables in a U-shape, ideal for impromptu parties. NOTE: Unlike the other tents in the range the Shamiana is not designed to be left up throughout the summer months and it is suggested that it is taken down after each use.

## Dimensions

Option 1: 3 x 3m  
Option 2: 4.5 x 4.5m  
Height: 2.2 front  
back 2.2 - 2.75
